

ARTIFICIAL BRICK SERIES

Authentic Texture | Warm Atmosphere | Timeless Beauty

Bring character to every space.

Tuscany Essence Series

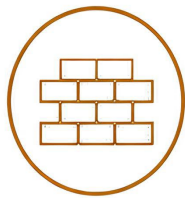

Classic Brick Character Reimagined For Elegant Interiors.

The Tuscany Essence Series brings the warmth and character of classic Italian architecture to life. Made from cement and crafted with exceptional realism, each tile faithfully recreates the texture and beauty of aged brickwork. Easier to handle and install than traditional masonry, it offers an ideal combination of authentic aesthetics, practical performance, and timeless Tuscan charm.

LIGHTWEIGHT CONSTRUCTION

Light in weight, reduces structural load and ensures easy handling and transportation.

AUTHENTIC BRICK APPEARANCE

Realistically replicates the texture, color variation and aged character of natural brick for a timeless look.

EASY INSTALLATION

Designed for simple installation with minimal effort, saving time and labor.

DURABLE & LONG-LASTING

Made from high-quality cement material for excellent durability and long-term performance.

Florence Grace Series

Where Sophistication Meets Timeless Architectural Beauty.

The Florence Grace Series Crafted from high-quality porcelain, this series faithfully recreates the natural beauty of stone with realistic textures and rich details. Fired at high temperatures, it offers outstanding strength, durability, and resistance to wear. The color remains stable and fade-resistant over time, ensuring lasting beauty with minimal maintenance. Perfect for creating timeless and elegant spaces.

NATURAL TEXTURE

Authentic textures and subtle variations create a naturally refined brick appearance.

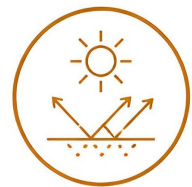

HIGH-TEMPERATURE FIRED

Fired at high temperatures for enhanced density, strength and stability.

HIGH DURABILITY

A strong porcelain body ensures reliable performance and lasting durability.

FADE RESISTANT

Maintains its original color and beauty for a long-lasting finish.

Test Report *

No.	Test Items	Requirement	Test Results	Verict
1	Water Absorption (%)	$3 < E \leq 6$ Maximum individual value ≤ 6.5	5.42~5.93 Average (E) = 5.67%	Pass
2	Modulus of Rupture (MPa)	Average value ≥ 22 MPa Individual value ≥ 20 MPa	50.6~57.2 Average (R)=54.2 MPa	Pass
3	Breaking Strength (N)	≥ 600 N	877.4~953.2 Average (S) = 924.4 N	Pass
4	Thermal Shock Resistance	No cracking, crazing, or spalling shall occur after 10 cycles of thermal shock testing.	Conformed	Pass
5	Frost Resistance	No cracks or surface spalling shall be visible after 100 freeze-thaw cycles.	Conformed	Pass
6	Dimensional Deviations (Length) Deviation from the work size	$\pm 0.6\%$ with a maximum deviation of ± 2.0 mm.	Conformed	Pass
7	Surface Quality	At least 95% of the tiles shall be free from visible defects in the principal surface area.	Conformed	Pass
